Subject: Draft note for John re: OR OA rationale

Late last week, John had asked us to send our final OA rationale to him for forwarding to Anna. I talked to Tom on Friday and he said if he was still out of the office, to forward it directly to John. Thanks.

John,
We have worked with R10 and OGC to finalize the Oregon 2012 303(d) list package and we received the final suggested edits from OGC this afternoon. Last week, you had asked us to send you the final rationale for the decision not to list Oregon coastal waters for biological impairments related to ocean acidification, which is detailed below. The Region is hoping to finalize this action and send the final package of materials to ODEQ by Thursday. If you or Anna have any additional questions, please contact me or Chris Hunter at 566-1454
